

Oil Found Near Winslow

WINSLOW — Casing is now being set in a wildcat oil well near here after a "high quality transparent liquid" was recovered late last week. ing is run down and swab tests taken.

The venture is at least 100 miles from existing production near the Four Corners area.

The well is the No. 1 State, operated by Harold Ferrin of Mesa. The well is on state land about 12 miles northeast of Winslow.

Ferrin said he recovered a high quality distillate from the Supai formation at 1,330 to 1,330 feet but could not determine the well's capability until the cas-
